

# Closing the gap between statistical and scientific workflows for improved forecasts in ecology

Victor Van der Meersch, J. Regetz, T. J. Davies\* & EM Wolkovich

April 7, 2025

\* Says he is happy to help and give friendly review, but not sure he will reach level of co-author.

**Deadline:** 1 May 2025 (was 1 April 2025)

*For:* Scientific and Statistical Workflow theme issue for *Phil Trans A* as an *Opinion*

**Goal:** Increase awareness of how we can merge statistical and scientific workflows in ecology (especially forecasting) and what we would get out of it.

## 1 Introduction
